

This document shows the procedure codes that require authorization for BCN HMO and BCN Advantage members and are managed by BCN. The list may not be all inclusive. In addition, this list is updated from time to time and is subject to members' benefits, to medical policy changes and to updates to American Medical Association coding guidelines.

To search for a code, press CTRL+F on your keyboard and type the code in the search field.

You can find additional details about the services represented by these codes in the tables in the [BCN Referral and Authorization Requirements](#) document.

This document doesn't include codes that are managed by vendors for BCN or codes for medical benefit drugs. See the table below for links to resources that contain these codes.

⁽⁶⁾ Elective pediatric feeding programs — both inpatient and outpatient — require authorization for BCN HMO members for dates of service on or after Sept. 1, 2020. Submit the request through the e-referral system. Use S0317 when submitting authorization requests for both inpatient and outpatient programs. For inpatient requests, do not add the length-of-stay procedure code. Use only the S0317 code when submitting inpatient authorization requests. For inpatient authorization requests that BCN approves, the length-of-stay procedure code will be added to the case. Bill a regular inpatient admission for reimbursement purposes. Do not bill elective inpatient pediatric feeding programs with the S0317 code.

⁽⁷⁾ BCN Utilization Management reviews this code through Dec. 31, 2020.
