Enteral nutrition

We provide coverage for this procedure for pediatric (over the age of 1) and adult members who meet medical necessity criteria. Submit authorization requests through the e-referral system.

The submitter will receive a prompt to complete a questionnaire to determine the appropriateness of the requested service. The questions are listed below.

If all questions are answered, e-referral will either approve or pend the case. If the case pends and we cannot authorize it, we will contact the provider for additional clinical information. Authorization is not a guarantee of payment.

Payment is based on established claim edits. We will retrospectively monitor compliance with this authorization requirement.

Applicable codes: B4034, B4035, B4036, B4081, B4082, B4083, B4087, B4088, B4102, B4103, B4104, B4149, B4150, B4152, B4153, B4154, B4155, B4157, B4158, B4159, B4160, B4161, B4162, B9002, B9998, S9341, S9342, S9343

See below for the questions you’ll encounter for this procedure in the e-referral system.

1. Does the patient require enteral nutrition by TUBE FEEDINGS to provide sufficient nutrients to maintain weight and strength in proportion with the patient’s overall health status due to a EITHER A or B? A. Dysfunction of indefinite duration or disease of the structures that normally permit food to reach the small bowel B. Disease of the small bowel that impairs digestion and absorption of an oral diet

   - Possible answers: ☐ Yes  ☐ No  ☐ N/A

2. Is the patient’s condition of long and indefinite duration (ordinarily at least three months)?

   - Possible answers: ☐ Yes  ☐ No  ☐ N/A

3. Does the patient’s medical record include ALL of the following (all A-D)? A. The patient’s general condition, including age, height and weight, estimated duration of therapy, ambulatory status and mental status B. The patient’s condition is either anatomic or due to a motility disorder C. A clinical assessment of the patient with an evaluation of nutrition, albumin, transferrin, hematocrit, clinical findings, etc. within 30 days prior to certifying or re-certifying the need for the enteral nutrition D. The patient’s nutritional prescription (including but not limited to): Name of the nutrient, number of calories per day (100 calories = 1 unit), frequency/day, method (syringe, gravity or pump), route (nasogastric tube, gastrostomy tube), rationale for pump, if necessary, attending physician’s signature

   - Possible answers: ☐ Yes  ☐ No  ☐ N/A
