

For dates of service on or after Oct. 1, 2018, AIM Specialty Health manages authorizations for certain cardiology and high-tech radiology services for BCN HMO (commercial) and BCN Advantage members.

Note: eviCore will process all cardiology and radiology requests (including postservice) for dates of service prior to Oct. 1.

These procedures fall into four categories:

- Category 1: Procedures that require authorization by eviCore healthcare for dates of service through Sept. 30, 2018, and will continue to require authorization by AIM for dates of service on or after Oct. 1, 2018
- Category 2: Procedures that require authorization by eviCore healthcare for dates of service through Sept. 30, 2018, but will not require authorization by AIM for dates of service on or after Oct. 1, 2018
- Category 3: A few procedures that require authorization by eviCore healthcare for dates of service through Sept. 30, 2018, will require authorization by BCN for dates of service on or after Oct. 1, 2018. Submit authorization requests for these procedures directly to BCN through the e-referral system. Don't submit them to AIM.
- Category 4: Procedures that do not require authorization by eviCore healthcare for dates of service through Sept. 30, 2018, but will require authorization by AIM for dates of service on or after Oct. 1, 2018

The table below shows which codes fall into each category.
