

CARE MANAGEMENT AND UTILIZATION MANAGEMENT

Blue Cross and BCN offer care management programs to members. We also provide utilization management programs.

These programs vary based on member coverage and may be administered by Blue Cross or BCN staff or by contracted vendors.

- **Care management** programs provide patient support by identifying patients with health risks and working with them to improve or maintain their health.
- **Utilization management** programs focus on ensuring that patients get the right care at the right time in the right location through the authorization process.

These programs are provided by the vendors listed below.

CARE MANAGEMENT

Aspire Health

Provides members with non-hospice palliative care that focuses on symptom management, patient-family communication, advanced care planning, medical crisis prevention and urgent response.

Care is delivered by community-based providers to members with life expectancies of fewer than 12 months. Medical care is provided by a multidisciplinary team that includes a palliative care physician, nurse practitioner, social worker, patient care coordinator, registered nurse and chaplain. This program is available to members in specific geographic regions.

In addition, a telehealth palliative care program is available to members in some rural areas within Michigan that lack the population density to support home-based services.

Aspire Health provides these services for the following groups and products:

- Medicare Plus BlueSM — All groups and all members with individual coverage
- BCN AdvantageSM — All groups and all members with individual coverage
