General information

Blue Cross Blue Shield of Michigan and Blue Care Network have contracted with TurningPoint Healthcare Solutions LLC for some musculoskeletal services. TurningPoint works with physicians and facilities to reduce surgical treatment variability, to promote safety and quality-of-care improvements and to provide support for your patients.

As part of this program, Blue Cross and BCN have delegated utilization management functions to TurningPoint for certain musculoskeletal surgical and other related procedures for most members.

Joint replacement surgeries and other related arthroscopic procedures

TurningPoint manages authorizations as follows:

- Blue Cross commercial
  - All fully insured groups, for dates of services on or after Jan. 1, 2021
  - Select self-funded groups — Groups were eligible to join this program for dates of service on or after Jan. 1, 2021.

  Note: This includes UAW Retiree Medical Benefits Trust non-Medicare members, for dates of service on or after May 31, 2021; providers can submit authorization requests to TurningPoint for URMBT members starting on May 3, 2021.

  - All members with individual coverage for dates of service on or after Jan. 1, 2021.

To determine which Blue Cross commercial members require prior authorization, see the document titled Determining whether Blue Cross commercial members require prior authorization for musculoskeletal surgeries and related procedures.

- Medicare Plus Blue members for dates of service on or after July 1, 2020
- BCN commercial members for dates of service on or after July 1, 2020
- BCN Advantage member for dates of service on or after July 1, 2020

Pain management procedures

TurningPoint manages authorizations as follows:

- Blue Cross commercial
  - All fully insured groups, for dates of services on or after Jan. 1, 2021

  - Select self-funded groups — Groups were eligible to join this program for dates of service on or after Jan. 1, 2021.

  Note: This includes UAW Retiree Medical Benefits Trust non-Medicare members, for dates of service on or after May 31, 2021; providers can submit authorization requests to TurningPoint for URMBT members starting on May 3, 2021.
All members with individual coverage for dates of service on or after Jan. 1, 2021.

To determine which Blue Cross commercial members require prior authorization, see the document titled Determining whether Blue Cross commercial members require prior authorization for musculoskeletal surgeries and related procedures.

- Medicare Plus Blue members for dates of service on or after Jan. 1, 2021
- BCN commercial members for dates of service on or after Jan. 1, 2021
- BCN Advantage member for dates of service on or after Jan. 1, 2021

Spinal surgeries

- Blue Cross commercial
  - All fully insured groups, for dates of services on or after Jan. 1, 2021
  - Select self-funded groups — Groups were eligible to join this program for dates of service on or after Jan. 1, 2021.

  Note: This includes UAW Retiree Medical Benefits Trust non-Medicare members, for dates of service on or after May 31, 2021; providers can submit authorization requests to TurningPoint for URMBT members starting on May 3, 2021.
  - All members with individual coverage for dates of service on or after Jan. 1, 2021.

To determine which Blue Cross commercial members require prior authorization, see the document titled Determining whether Blue Cross commercial members require prior authorization for musculoskeletal surgeries and related procedures.

- Medicare Plus Blue members for dates of service on or after Jan. 1, 2021
- BCN commercial members for dates of service on or after July 1, 2020
- BCN Advantage member for dates of service on or after July 1, 2020
As a quick reference, the following table specifies the date of service on which TurningPoint began managing authorizations for each line of business.

<table>
<thead>
<tr>
<th>Service</th>
<th>TurningPoint began or will begin managing authorizations</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Blue Cross commercial</td>
</tr>
<tr>
<td>Joint procedures</td>
<td>Jan. 1, 2021(1)</td>
</tr>
</tbody>
</table>

(1) For Blue Cross commercial fully insured groups and Blue Cross commercial members with individual coverage. Not all Blue Cross self-funded groups participate in this program and start dates vary for the groups that do participate. To determine which Blue Cross commercial members require prior authorization, see the document titled Determining whether Blue Cross commercial members require prior authorization for musculoskeletal surgeries and related procedures.

For more information, see “Which procedures require authorization through TurningPoint?” on page 6.

What is TurningPoint?
TurningPoint provides an innovative musculoskeletal surgical quality and safety management program through which patients, payers and providers collaborate to improve the quality and affordability of health care services.

TurningPoint’s comprehensive solution integrates evidence-based utilization management guidelines with clinical best practices, site-of-service optimization for select procedures, specialized peer-to-peer engagement, device and recall management, innovative quality programs and advanced reporting and analytics to promote the overall health management of each member.

Which providers are affected by this agreement?
All musculoskeletal (orthopedic, spine, neurosurgical and pain management) providers whose members fall under the enrolled plans are affected.
Which procedures require authorization through TurningPoint?
For members with the plans specified earlier in this document, TurningPoint manages authorizations for:

<table>
<thead>
<tr>
<th>Type of procedure</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>Orthopedic surgical procedures</td>
<td>Including all associated partial, total and revision surgeries</td>
</tr>
<tr>
<td>• Knee arthroplasty</td>

</tbody>
</table>

To view the procedure codes for which TurningPoint manages authorizations, see the Musculoskeletal procedure codes that require authorization by TurningPoint document.

Note: This list is updated from time to time and is subject to members’ benefits, to medical policy changes and to updates to American Medical Association coding guidelines.
Does this change affect services that are currently managed by eviCore healthcare?
Yes. For dates of service on or after Jan. 1, 2021, eviCore no longer manages lumbar spinal fusion surgeries or pain management procedures for any Blue Cross or BCN members.

What are TurningPoint’s hours and days of operation?
TurningPoint staff are available by phone from 8 a.m. to 8 p.m. Eastern time Monday through Friday, excluding holidays (New Year’s Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day).

You can contact TurningPoint toll-free at 1-833-217-9670 or locally at 313-908-6040.

If a provider needs to request a prior authorization after hours or on weekends or holidays, TurningPoint medical professionals are on-call 24 hours a day, 7 days a week.

How do I register for direct access to the TurningPoint Provider Portal?
If you have access to Blue Cross and BCN’s Provider Secured Services, you can access the TurningPoint Provider Portal through Provider Secured Services. You don’t need to register with TurningPoint. See “How do I submit authorization requests to TurningPoint?” on page 8 for more information.

To access the TurningPoint Provider Portal through the TurningPoint website, you must register with TurningPoint. To register:

1. Go to myturningpoint-healthcare.com.**
2. Click Register for access under the Login Now button.
3. Fill out a validation form and submit the form to TurningPoint.

If you have questions or need assistance, email TurningPoint at portalregistration@turningpoint-healthcare.com.

How do I access the TurningPoint Provider Portal?
See “How do I submit authorization requests to TurningPoint?” on page 8.

Whom do I contact with questions regarding the program?
For questions regarding TurningPoint’s surgical quality and safety management program or to set up an in-service with your practice, call TurningPoint at 313-908-6041. You’ll be directed to a provider engagement specialist.
Authorizations

Who is responsible for requesting prior authorization?
The physician or provider office that will perform the procedure is responsible for requesting prior authorization.

TurningPoint prior authorizations cover both the procedure and the place of service.

We recommend that the ordering physician or provider office secure the prior authorization and provide the authorization number to the facility or providers when they schedule the procedure.

Note: For musculoskeletal surgeries that are authorized by TurningPoint, facilities don’t need to request separate prior authorizations. For more information, see “If TurningPoint authorized a member for an outpatient procedure but the member has a medical reason for an extended stay, how should the facility submit the prior authorization request?” on page 21.

Should I submit prior authorization requests directly to TurningPoint?
Yes. Submit authorization requests for musculoskeletal surgeries and related procedures to TurningPoint.

How do I submit authorization requests to TurningPoint?

<table>
<thead>
<tr>
<th>Method of submission</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>Through Provider Secured Services</td>
<td>Access the TurningPoint Provider Portal through the Provider Secured Services home page. To do this:</td>
</tr>
<tr>
<td></td>
<td>1. Log in to <a href="http://bcbsm.com">bcbsm.com</a> as a provider.</td>
</tr>
<tr>
<td></td>
<td>2. Click the Musculoskeletal service authorization through TurningPoint link.</td>
</tr>
<tr>
<td></td>
<td>3. Enter your NPI.</td>
</tr>
<tr>
<td></td>
<td>If you’re having trouble accessing the TurningPoint Provider Portal using this process, contact the Blue Cross Web Support Help Desk at 1-877-258-3932.</td>
</tr>
<tr>
<td></td>
<td>If you’re having trouble while working in the TurningPoint Provider Portal, contact TurningPoint Customer Service toll-free at 1-833-217-9670 or locally at 313-908-6040.</td>
</tr>
<tr>
<td></td>
<td>Note: Out-of-state providers can access this area by logging in to their local plan’s website and selecting an ID card prefix from Michigan. This will take you to the Blue Cross Blue Shield of Michigan website where you can click the Musculoskeletal service authorization through TurningPoint link and enter your NPI. You may need to complete a one-time registration process with TurningPoint; after you complete this process, you’ll have access to the Musculoskeletal service authorization through TurningPoint link in Provider Secured Services.</td>

## Musculoskeletal procedure authorizations

### Frequently asked questions for providers

For Blue Cross commercial, Medicare Plus Blue℠
BCN commercial and BCN Advantage℠

Revised May 2021

<table>
<thead>
<tr>
<th>Method of submission</th>
<th>Details</th>
</tr>
</thead>
</table>
| Through the TurningPoint website | Access the TurningPoint Provider Portal at [myturningpoint-healthcare.com](http://myturningpoint-healthcare.com).**  
If you’re having trouble accessing the TurningPoint Provider Portal using this process, contact the TurningPoint Technical Support team at 313-908-6041.  
If you’re having trouble while working in the TurningPoint Provider Portal, contact TurningPoint Customer Service toll-free at 1-833-217-9670 or locally at 313-908-6040.  
You must register with TurningPoint before you can log in through the TurningPoint website. See “How do I register for direct access to the TurningPoint Provider Portal?” on page 7 for information about registering. |
| By fax | Fax the appropriate authorization request form to TurningPoint as follows:  
- Fax **Joint and spine procedures authorization request forms** to 313-879-5509.  
- Fax pain management authorization request forms to 313-483-7323.  
To determine which form to use, see “Which form should I use to fax an authorization request to TurningPoint?” on page 9. |
| By phone | Call TurningPoint toll-free at 1-833-217-9670 or locally at 313-908-6040. |

### Which form should I use to fax an authorization request to TurningPoint?

The most efficient way to submit authorization requests is through the TurningPoint Provider Portal, which you can access through Provider Secured Services.

Note: If you registered with TurningPoint, you can access the TurningPoint Provider Portal through the TurningPoint website.

If you need to fax an authorization request to TurningPoint, complete the appropriate form and fax it to the number on the form. Click a link below to open a form:

- [Joint and spine procedures authorization request form](#)
- [Pain management: Epidural steroid injections authorization request form](#)
- [Pain management: Facet joint injections authorization request form](#)
- [Pain management: Neuroablation procedures authorization request form](#)
- [Pain management: Sacroiliac joint injections authorization request form](#)

To determine which pain management form you should submit, see the “Pain management” section of the [Musculoskeletal procedure codes that require authorization by TurningPoint](#).
document. This document specifies which procedure codes fall within each pain management category.

You can also find these forms on the BCN Musculoskeletal Services page and the Blue Cross Musculoskeletal Services page of the ereferrals.bcbsm.com website.

How do I know if I need to request prior authorization from TurningPoint for members who have coverage through Blue Cross commercial plans?
See the document titled Determining whether Blue Cross commercial members require prior authorization for musculoskeletal surgeries and related procedures. Follow the step-by-step instructions in that document to determine whether prior authorization is required.

For Blue Cross commercial members, is prior authorization required for musculoskeletal procedures that aren’t managed by TurningPoint?
Not all Blue Cross commercial self-funded groups participate in TurningPoint’s musculoskeletal surgical quality and safety management program.

Here’s what you need to know about Blue Cross commercial members who have coverage through self-funded groups that don’t participate in the program:

- **For outpatient musculoskeletal procedures:** You don’t need to obtain prior authorization.

- **For inpatient musculoskeletal procedures:** You need to obtain prior authorization for the inpatient admission, even though you aren’t required to obtain authorization for the musculoskeletal procedures. For these requests:
  
  1. In the e-referral system, submit an authorization request for procedure code *99222 as outlined in the “Submit an inpatient authorization” section of the e-referral User Guide.
  
  2. When submitting this request, do not submit the musculoskeletal procedure codes. Instead, attach clinical information or insert notes that specify the procedures that will be performed to the authorization request for procedure code *99222.

  **Important!** Do not submit an authorization request for the musculoskeletal procedure codes.

To determine whether a Blue Cross member requires authorization from TurningPoint, see the document titled Determining whether Blue Cross commercial members require prior authorization for musculoskeletal surgeries and related procedures.
Are there any changes to the requirements for pain management procedures?
Yes. The following table outlines the changes to requirements for pain management procedures.

<table>
<thead>
<tr>
<th>Procedure</th>
<th>TurningPoint requirement, for dates of service on or after Jan. 1, 2021</th>
<th>Previous requirement, for dates of service prior to Jan. 1, 2021</th>
</tr>
</thead>
<tbody>
<tr>
<td>All pain management procedures</td>
<td>When conservative treatment is required, TurningPoint requires six weeks of conservative therapy with three specific modalities. You can view conservative treatment requirements in the medical policies, which are available in the TurningPoint Provider Portal.</td>
<td>Four to six weeks of conservative treatment. No specific modalities are required.</td>
</tr>
<tr>
<td>Epidural steroid injections</td>
<td>TurningPoint requires imaging confirmation to support radiculopathy. TurningPoint has more exclusions than the previous guidelines, including exclusions for the presence of health conditions that could be worsened by steroids. You can view the medical policy in the TurningPoint Provider Portal.</td>
<td>Radiculopathy can be assumed based on symptoms. Imaging confirmation isn’t required.</td>
</tr>
<tr>
<td>Facet joint injections</td>
<td>TurningPoint allows the treatment of two levels per session for diagnostic facet joint injections.</td>
<td>Allows the treatment of three levels per session for diagnostic facet joint injections.</td>
</tr>
<tr>
<td>Sacroiliac joint injections</td>
<td>In keeping with North American Spine Society guidelines, TurningPoint has stringent criteria for the diagnosis of sacroiliac joint pain and requires two diagnostic injections to confirm.</td>
<td>Requires one diagnostic joint injection to confirm; criteria to confirm sacroiliac joint pain are unclear.</td>
</tr>
<tr>
<td>Neuroablation</td>
<td>TurningPoint doesn’t allow neuroablation at any prior fused spinal levels</td>
<td>Allows for neuroablation at prior fused spinal levels when neuroablation is also performed at an adjacent level.</td>
</tr>
</tbody>
</table>
Will TurningPoint approve contradicting procedure codes?

No. TurningPoint will review each code for medical necessity. If the surgical plan or pathology doesn’t warrant an extensive additional procedure, TurningPoint will approve the primary code and deny additional coding, per the Medicare National Correct Coding Initiative, or NCCI, edit.

TurningPoint follows NCCI edit guidelines. For more information about NCCI edits, see https://www.cms.gov/Medicare/Coding/NationalCorrectCodInitEd/index.**

In keeping with NCCI edit guidelines, TurningPoint approves codes based on the clinical documentation and surgical plan submitted for a member.

TurningPoint will issue partial approvals as follows:

- TurningPoint will approve only the codes that are supported by the clinical documentation.
- TurningPoint won’t approve contradicting procedure codes.

Example: If a provider submits a prior authorization request for both a total knee arthroplasty and a partial knee arthroplasty, TurningPoint will approve the procedure codes that are supported by the clinical documentation and deny the remaining procedure codes.

If the surgical plan changes intraoperatively, providers can update the authorized codes. For more information, see “What if the procedure that was performed doesn’t match the procedure code TurningPoint authorized? " on page 19.

Do I have to fill out questionnaires when I submit authorization requests?

You’ll need to fill out questionnaires when you submit authorization requests for pain management procedures through the TurningPoint Provider Portal.

When you submit authorization requests for pain management procedures via fax, the fax forms include the questions you need to answer.

Whether you submit your request online or by fax, TurningPoint will reach out to you if additional information is needed before they can make a determination.

Can I request multiple primary procedure codes for pain management services on a single authorization?

For pain management injections, TurningPoint will authorize one injection session on a date of service. The injection session should include only injections of the same type that are done at one or multiple levels. (Varies by medical policy. You can view medical policies in the TurningPoint Provider Portal.)

TurningPoint doesn’t authorize injection series. As a result, providers have to submit a prior authorization request for each subsequent injection session. This allows TurningPoint to
evaluate the medical necessity of each subsequent injection after considering the member’s response to the previous injection.

If a patient needs a pain management injection within the duration of an existing pain management authorization, do I need to submit a new prior authorization request?
Yes. Providers must submit a prior authorization request and receive approval from TurningPoint for each subsequent injection session.

Do add-on codes require prior authorization?
For most services, only primary procedure codes require prior authorization. However, add-on codes require prior authorization for pain management services.

How long does the authorization process take?
Turnaround times won’t exceed the time frames listed below.

<table>
<thead>
<tr>
<th>Type of request</th>
<th>Medicare Plus Blue and BCN Advantage</th>
<th>Blue Cross commercial and BCN commercial</th>
</tr>
</thead>
<tbody>
<tr>
<td>Standard (non-urgent) requests</td>
<td>5 calendar days after TurningPoint receives complete information(^{(1)})</td>
<td>5 calendar days after TurningPoint receives complete information(^{(2)})</td>
</tr>
<tr>
<td>Expedited (urgent) requests</td>
<td>72 hours</td>
<td>72 hours</td>
</tr>
<tr>
<td>Retroactive requests</td>
<td>14 calendar days from the date on which TurningPoint received the authorization request</td>
<td>30 calendar days from the date on which TurningPoint received the authorization request</td>
</tr>
</tbody>
</table>

\(^{(1)}\)If you don’t submit complete information, there may be delays in processing your request. For Medicare Advantage members, providers will have an additional 9 calendar days during which they can submit missing information; TurningPoint will make a determination based on the information they’ve received after a total of 14 calendar days.

\(^{(2)}\)If you don’t submit complete information, there may be delays in processing your request. For commercial members, TurningPoint will make a determination based on the information they’ve received by the end of 5 calendar days. For denied authorizations, you can request that TurningPoint reconsider their decision; see “What is the reconsideration process for denied authorization requests?” on page 18 for more information.
What happens if I submit a request to TurningPoint when I should have submitted it to Blue Cross or BCN, or vice versa?

When TurningPoint receives a request for prior authorization, they validate the procedure and medical codes against the scope of services agreed upon between TurningPoint and Blue Cross or BCN. If TurningPoint determines that the request is out of scope, they will forward the request to Blue Cross or BCN and notify the provider that they have forwarded the request.

Likewise, if you contact the Blue Cross or BCN Utilization Management department about procedures that are managed by TurningPoint, you'll be redirected to TurningPoint.

Note: TurningPoint will be actively engaged in the education of each provider practice to ensure they have the appropriate contact information to limit the number of redirections that need to take place.

What happens if I submit a request to eviCore when I should have submitted it to TurningPoint?

If you submit a prior authorization request to eviCore with a date of service on or after Jan. 1, 2021, eviCore will forward the request to Blue Cross or BCN.

Using the information they received, Blue Cross or BCN will forward the prior authorization request to TurningPoint.

TurningPoint will contact you if additional information is needed to make a determination on your request.

Do musculoskeletal procedures that are performed during an inpatient admission that originated in the emergency department require prior authorization from TurningPoint?

Musculoskeletal surgeries don’t require prior authorization from TurningPoint when they’re performed during an inpatient admission that originated in the emergency department. The ED visit must meet the contractual definition of emergency department services.

Musculoskeletal procedures performed during an inpatient admission that didn’t originate in the ED do require prior authorization through TurningPoint for all Medicare Plus Blue, all BCN commercial, all BCN Advantage and some Blue Cross commercial members. For information about determining which Blue Cross commercial members require authorization from TurningPoint, see the document titled Determining whether Blue Cross commercial members require prior authorization for musculoskeletal surgeries and related procedures.

In addition, you need to request prior authorization for the inpatient admission, whether it originated in the ED or elsewhere. For these requests, submit procedure code *99222 as outlined in the e-referral User Guide; see the “Submitting an emergency or urgent admission (includes Blue Cross member submissions)” subsection within the “Submit an inpatient authorization” section for more information.
Surgeries that are scheduled in advance and aren’t related to an emergency event require prior authorization.

See “How do I submit a claim for a musculoskeletal procedure that was performed due to an inpatient admission that originated in the emergency department?” on page 22 for information about submitting claims.

What documentation should I submit with a prior authorization request?

You’ll need to provide the following minimum information when you submit a prior authorization request:

- Provider information
- Facility information and anticipated surgery date
- Health plan information
- Member information
- Requested procedures/diagnosis
- Clinical information should include:
  - History of present illness
  - Radiological imaging reports
  - Attempted conversation therapies
  - Documented surgical plan

  For more information about the clinical documentation that’s required, see the Clinical documentation requirements for musculoskeletal procedures document.

- Device manufacturer and product type information (if known)

For information about the methods by which you can submit prior authorization requests, see “How do I submit authorization requests to TurningPoint?” on page 8.
What criteria does TurningPoint use to make determinations on authorization requests?

TurningPoint uses the following criteria:

<table>
<thead>
<tr>
<th>Plan type</th>
<th>Criteria for making determinations</th>
</tr>
</thead>
<tbody>
<tr>
<td>Commercial — Blue Cross commercial and BCN commercial</td>
<td>TurningPoint applies medical policy guidelines for musculoskeletal and pain management procedures that Blue Cross Blue Shield of Michigan, BCN and TurningPoint agreed on.</td>
</tr>
<tr>
<td>Medicare Advantage — Medicare Plus Blue and BCN Advantage</td>
<td>TurningPoint applies the Medicare national coverage determinations / Medicare local coverage determinations. If there is no Medicare NCD / LCD, TurningPoint applies medical policy guidelines for musculoskeletal and pain management procedures that Blue Cross Blue Shield of Michigan, BCN and TurningPoint agreed on.</td>
</tr>
</tbody>
</table>

You can view the medical policies in the TurningPoint Provider Portal.

Have there been any changes to medical policies?

Blue Cross and BCN reviewed medical policies that will be used in this program with TurningPoint. You can view the medical policies in the TurningPoint Provider Portal.

The most notable changes are:

- You must obtain prior authorization for procedures that will be performed on children
- For some joint procedures, we added criteria for body mass index and smoking cessation

What qualifications do TurningPoint physicians have to review authorization requests?

TurningPoint employs orthopedic and spine physicians who have held positions within the largest associations related to their specialties:

- Six former presidents of the American Academy of Orthopaedic Surgeons
- The past president and current board member of the North American Spine Society
- Former presidents of the American Board of Orthopaedic Surgery
- The past president of the Pediatric Orthopedic Society of North America
- Two of the AAOS’s former board representatives to CMS for all musculoskeletal-related billing and coding changes
• Multiple past regional and state orthopaedic association presidents, including the former presidents of the California, New York, Texas and New Jersey orthopaedic associations, as well as multiple AAOS board members

Whom should I call with follow-up questions after I submit an authorization request?
After you submit an authorization request to TurningPoint, you can submit questions through the TurningPoint Provider Portal, which you can access through Provider Secured Services or at myturningpoint-healthcare.com.**

You can also direct follow-up questions to TurningPoint during normal business hours by calling 1-833-217-9670 (toll-free) or 313-908-6040 (local).

Normal business hours are 8 a.m. to 8 p.m. Eastern time Monday through Friday, excluding holidays (New Year’s Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day).

How are providers and members notified of the outcome of authorization requests?
TurningPoint will make a courtesy call to notify providers of the outcome of each authorization request.

The provider and member will receive a notification determination letter regarding the status of the authorization request, along with supporting information.

How long will the prior authorization approval be valid?
For prior authorizations approved on or after Jan. 1, 2021: Prior authorizations are valid for 30 calendar days for all musculoskeletal procedures, including pain management procedures.

For prior authorizations approved on or before Dec. 31, 2020: We extended the duration of prior authorization approvals during the COVID-19 pandemic, as outlined in the COVID-19 utilization management changes document. This document is available on the Blue Cross Authorization Requirements & Criteria page and the BCN Authorization Requirements & Criteria page.

How do I request a peer-to-peer conversation for a Medicare Advantage member?
Before denying an authorization request, TurningPoint will make three attempts to notify the provider of their intent to deny any request that doesn’t meet medical necessity criteria. As part of this notification, TurningPoint will offer to schedule a peer-to-peer conversation. You’ll need to give TurningPoint three dates when you’re available to meet. TurningPoint will schedule the conversation based on the dates you requested.
If TurningPoint is unable to contact you, they’ll proceed with the authorization decision based on the information you provided with the authorization request.

Alternately, you can request a peer-to-peer conversation any time before providing services or filing an appeal with the health plan.

For TurningPoint to consider information obtained during a peer-to-peer conversation when making an authorization determination, the peer-to-peer conversation must take place prior to the denial of an authorization request.

Note: If the peer-to-peer conversation takes place after TurningPoint issues a denial, TurningPoint can’t reverse the denial. In such cases, the peer-to-peer conversation is for informational purposes only.

For peer-to-peer requests for Blue Cross commercial and BCN commercial members, see “What is the reconsideration process for denied authorization requests?” on page 18.

What is the reconsideration process for denied authorization requests?

For denied authorization requests for Blue Cross commercial and BCN commercial members, you can request that TurningPoint reconsider their decision.

You have two options to request a reconsideration of a decision:

- You can ask TurningPoint to review additional clinical documentation, you can provide clarifying details that are pertinent to the request or both. Submit the documentation, details or both in one of these ways:
  - Through the TurningPoint Provider Portal
  - By fax. Include a cover sheet that identifies the patient and send the fax to 313-879-5509 for joint and spine procedures or to 313-483-7323 for pain management procedures.

- You can request a peer-to-peer conversation to review the case with a physician. To do this, call 1-833-217-9670. You’ll need to provide three dates when you’re available to meet. TurningPoint will schedule the conversation based on the dates you request.

You can request a reconsideration or a peer-to-peer conversation any time before providing services or filing an appeal with the health plan.

If you completed a reconsideration or peer-to-peer conversation and are dissatisfied with the decision, you may file an appeal.

Note: For Medicare Plus Blue and BCN Advantage members, there isn’t a reconsideration process. However, you can file an appeal. For information about appeals, see “What is the grievance and appeals process for denied authorization requests?” on page 20.
How do I update the date of service or the facility on a prior authorization?
If there’s a change to the date of service or to the facility, call TurningPoint to update the prior authorization.

How do I update procedure codes on a prior authorization before the date of service?
If a change was made to the procedure that was originally authorized, call TurningPoint to update the coding. If medical necessity review is required for the new coding, you may have to submit additional clinical documentation.

What if the procedure that was performed doesn’t match the procedure code TurningPoint authorized?
In some situations, you may not know which orthopedic or spinal procedure will be required in advance of a surgery or the surgical plan may change intraoperatively. As a result, the procedure code TurningPoint authorized may not represent the procedure that was actually performed.

Prior to submitting claims for these procedures, you’ll need to determine whether you can substitute the code for the procedure that was actually performed for the code TurningPoint authorized. If you can substitute the code, you won’t need to contact TurningPoint to update the procedure coding.

To learn how to determine if the approved code allows substitutions and to view all codes that allow substitutions, see the Musculoskeletal procedure code substitutions for orthopedic and spinal surgeries document.

If you file a claim using a substitute procedure code, Blue Cross or BCN will process the claim based on the code for the procedure that was performed.

If you can’t substitute the code for the procedure that was performed, you need to submit a postservice change request to TurningPoint by doing one of the following:

- Completing the Postservice change request form and faxing it to TurningPoint. To find the form, go to the referrals.bcbsm.com website, click Blue Cross or BCN, and then click the Musculoskeletal Services link.

- Calling TurningPoint toll-free at 1-833-217-9670 or locally at 313-908-6040.
Can I submit a retroactive authorization request?
Yes. You can submit retroactive requests for up to 90 days after the procedure is performed.

To submit a retroactive authorization request to TurningPoint, follow the instructions in “How do I submit authorization requests to TurningPoint?” on page 8.

Notes:
- For procedure codes that were managed by eviCore for dates of service prior to Jan. 1, 2021, you can submit retroactive authorization requests to eviCore through April 30, 2021. To determine which authorizations are managed by eviCore, see Services reviewed by eviCore for Blue Cross and BCN.

- For procedure codes that were managed by BCN or Medicare Plus Blue Utilization Management for dates of service prior to July 1, 2020, retroactive authorization requests will be accepted through Sept. 28, 2020.

- For procedure codes that were managed by Medicare Plus Blue Utilization Management for dates of service prior to Jan. 1, 2021, retroactive authorization requests will be accepted through March 31, 2021.

Do I need to submit a form when submitting an appeal to Blue Cross or BCN?
Yes. When appealing on behalf of a member, submit the following form:

- For Blue Cross commercial members, submit an Authorized Representative form.
- For BCN commercial members, submit an Appointment of Representative form.

Providers who submit the necessary form can follow the member appeal process, which is outlined in the denial letter. The denial letter also includes the form you must submit to appeal on behalf of a member.

What is the grievance and appeals process for denied authorization requests?
There are no changes to the grievance and appeals process. For information about the process of requesting an appeal, refer to the denial letter.
Facilities

If TurningPoint authorized a member for an outpatient procedure but the member has a medical reason for an extended stay, how should the facility submit the prior authorization request?

Because this is a medical admission, submit the prior authorization request through the e-referral system. Blue Cross or BCN will use the inpatient admission criteria to review the request.

When submitting the request, select inpatient as the place of service, select “Direct” as the admission type and enter CPT code 99222. Be sure to attach clinical notes that support the medical reason for admission.

Are there any changes to how facilities report patient discharge dates to Blue Cross or BCN?

If you’ve been reporting discharge information to Blue Cross and BCN, please continue to do so.

We also rely on admission, discharge, and transfer data we receive from the Michigan Health Information Network, or MiHIN, systems to update discharge information.

How can I tell how many days TurningPoint approved for an inpatient prior authorization?

You can determine the number of days TurningPoint approved for an inpatient prior authorization by doing one of the following:

- Calling TurningPoint toll-free at 1-833-217-9670 or locally at 313-908-6040
- Accessing the e-referral system. Note that:
  - The status of authorization requests is available in the e-referral system 24 hours after TurningPoint makes a determination
  - You need to search for the member, not for the TurningPoint authorization number
- Accessing the TurningPoint Provider Portal.

In the TurningPoint Provider Portal, facilities can view only authorizations that have been entered by professional providers who are affiliated with the facility. To view these authorizations, enter the affiliated provider’s NPI.

If you have questions, contact TurningPoint at 1-833-217-9670 (toll-free) or 313-908-6040 (local).

BCN commercial and BCN Advantage℠
Revised May 2021

Note: Later this year, TurningPoint will release a facility-only portal through which all facilities will have access to the TurningPoint Provider Portal.

How do I request additional days for an inpatient stay?
You can request additional days for an inpatient stay through the e-referral system.

In the e-referral system, you'll need to search for the member, not for the TurningPoint authorization number.

Claims

Does authorization guarantee payment?
Authorization is not a guarantee of payment. Claims submitted for these services will also be subject, but not limited to, the following:

- Member eligibility at the time services were provided
- Benefit limitations and/or exclusions
- Appropriateness of codes billed
- Medical necessity review, if authorization wasn’t obtained before services were provided

Will TurningPoint process claims for Blue Cross and BCN?
No, Blue Cross and BCN will process claims. You should continue to submit claims as you do currently.

If you submit a claim for a service for which you didn’t receive authorization, Blue Cross or BCN may deny the claim.

How do I submit a claim for a musculoskeletal procedure that was performed due to an inpatient admission that originated in the emergency department?
Once you’ve obtained prior authorization for the inpatient admission (as discussed in “Do musculoskeletal procedures that are performed during an inpatient admission that originated in the emergency department require prior authorization from TurningPoint?” on page 14), follow the normal claims submission process for inpatient admissions that originated in the emergency department.

For information about submitting claims, see the following resources:

If you receive a denial for a claim and both of the following are true, call Provider Inquiry:

- The musculoskeletal procedure was performed as part of an inpatient admission that originated in the emergency department
- You received authorization for the inpatient admission

During the call, tell them you received a claim denial for a musculoskeletal procedure that was performed as part of an inpatient admission that originated in the emergency department.

For Provider Inquiry contact information, see “Whom should I call if I have questions about musculoskeletal claims that aren’t answered in this document?” on page 24.

What is the audit and recovery process for claims?
On inpatient professional claims, include only the musculoskeletal procedure codes that TurningPoint authorized.

On a quarterly basis, Blue Cross and BCN will review paid inpatient claims from professional providers to ensure that the procedure codes on the claims match the procedure codes TurningPoint authorized. If we find overpayments because the claim included codes that TurningPoint didn’t authorize, we’ll pursue payment recoveries as necessary.
You can request that TurningPoint add procedures codes to an authorization, but you must make this request prior to submitting a claim. For information about how to do this, see the following questions:

- “How do I update procedure codes on a prior authorization before the date of service?” on page 19
- “What if the procedure that was performed doesn’t match the procedure code TurningPoint authorized?” on page 19

**What will happen if I submit a claim with a procedure code that doesn’t match the code TurningPoint approved?**

Blue Cross and BCN will deny any codes other than those authorized by TurningPoint.

For information about what to do when there’s a change to the procedure code or site of care, see the following questions:

- “How do I update procedure codes on a prior authorization before the date of service?” on page 19
- “What if the procedure that was performed doesn’t match the procedure code TurningPoint authorized?” on page 19
- “How do I update the date of service or the facility on a prior authorization?” on page 19
- “If TurningPoint authorized a member for an outpatient procedure but the member has a medical reason for an extended stay, how should the facility submit the prior authorization request?” on page 21.

**Whom should I call if I have questions about musculoskeletal claims that aren’t answered in this document?**

If you have questions about a claim, call the appropriate number below.

- Blue Cross commercial, BCN commercial and BCN Advantage members:
  - Professional providers: Call Provider Inquiry at 1-800-344-8525.
  - Facility providers: Call Provider Inquiry at 1-800-249-5103.
- Medicare Plus Blue members: Call 1-866-309-1719.
