How to request a peer-to-peer review with a Blue Cross or BCN medical director

For Blue Cross commercial, Medicare Plus BlueSM, BCN commercial and BCN AdvantageSM requests

Revised January 2021

This document provides instructions on requesting a peer-to-peer review with a Blue Cross or Blue Care Network medical director about services for which an authorization request has been denied by Blue Cross or BCN. The purpose of a peer-to-peer review of a determination on either an inpatient or outpatient authorization request is to exchange information about the clinical nuances of the member’s medical condition and the medical necessity of the services.

Note: The processes described below do not apply to authorization requests denied by vendors who manage the authorization process for various services on behalf of Blue Cross or BCN.

Section 1: Non-behavioral health services

A - For inpatient non-behavioral health non-elective admissions (in hospitals, inpatient rehabilitation care, skilled nursing facilities and long-term acute care hospitals) — all plans

**Note:** For BCN commercial, BCN Advantage and Blue Cross commercial, peer-to-peer review requests for hospital admissions must be submitted within seven business days of the date the initial authorization request was denied. For Medicare Plus Blue, no peer-to-peer review requests for hospital admissions will be accepted, effective Jan. 4, 2021. Instead, providers should follow the two-level provider appeal process for Medicare Plus Blue. For information on that process, refer to the Medicare Plus Blue PPO Manual; look in the section titled “Contracted MI Provider Acute Inpatient Admission Appeals.”

**Exception:** For Medicare Plus Blue and BCN Advantage members in inpatient rehabilitation care, skilled nursing facilities and long-term acute hospitals, peer-to-peer reviews are handled by naviHealth. Refer to the document Post-acute care services: Frequently asked questions for providers. Look for the question “How can I talk to a medical director at naviHealth for a peer-to-peer review?”

opportunity to talk to a medical director. Refer to the BCN Advantage chapter of the BCN Provider Manual for additional information. Look in the section titled “BCN Advantage member appeals.”

What to do, for Medicare Plus Blue: You must initiate an appeal. To initiate an appeal, follow the instructions in the denial letter you received. In the appeal request, you must indicate you want a peer-to-peer review. During the appeal process, you can ask to talk to a medical director at any time.

C - For outpatient non-behavioral health services (in offices, clinics, outpatient hospitals, and ambulatory surgery facilities) — Blue Cross commercial

What to do: Fax the following information to 1-866-752-5756:

- A fax cover sheet with the physician’s name and NPI number and the patient’s name
- A copy of the nonapproval letter
- A telephone number where we can reach the physician
- A minimum of three dates and times when the physician is available

Send the fax during the normal business hours of 8 a.m. to 5 p.m. (except for weekends and holidays). Outreach will not occur until the next business day. The peer-to-peer review will be scheduled on business days, Monday through Friday, between 6 a.m. and 5:30 p.m. (except for holidays); in some instances, we can accommodate a peer-to-peer review between 6 and 8 p.m. (All times are Eastern time.)

General guidelines for all non-behavioral health requests

Requests for peer-to-peer reviews of non-behavioral health determinations on non-elective inpatient and outpatient services must follow the guidelines listed here.

- Requests for peer-to-peer reviews of hospital inpatient admissions must be submitted within seven business days of the date the initial authorization request was denied. This is effective Jan. 4, 2021.
  
  Note: Effective Jan. 4, 2021, no peer-to-peer review requests for hospital admissions of Medicare Plus Blue members will be accepted. Instead, providers should follow the two-level provider appeal process for Medicare Plus Blue.

- Submit requests only for denials that are based on medical necessity.
  
  Note: If an authorization was denied for administrative reasons — for example, if the member was not eligible, the service was not a covered benefit or someone other than the member’s assigned primary care physician made the referral — a peer-to-peer review cannot be requested because the medical director wasn’t the person who denied the authorization request. Administrative denials must be appealed.

- Don’t submit for a denial of a member’s appeal or grievance. Peer-to-peer reviews are not accepted for a denial related to an appeal or grievance.

- Completion of a peer-to-peer review is not required prior to submitting an appeal request.

- When you request a peer-to-peer review using the Physician peer-to-peer request form, you must submit a separate form for each request. We can’t accept a form that has information about more than one member. We also can’t accept a form used as a face sheet with information about different members attached to it. The reason is that when you fax a form to us, we upload it to the member’s case in the e-referral system along with any attachments you’ve sent with it. If a form uploaded to one member’s case has information about other members on it or attached to it, it’s a violation of the Health Insurance Portability and Accountability Act.

Revised January 2021

• Don’t submit clinical information after an authorization is denied. Submission of clinical information after an authorization request is denied results in the initiation of an appeal. Once that occurs, it’s no longer possible to have a peer-to-peer review, for most members.

• If you miss or refuse to complete a peer-to-peer review with the assigned Blue Cross or BCN medical director, it won’t be rescheduled. You’ll have to file an appeal.

Note: Peer-to-peer reviews are available only after the initial denial of an authorization request. Also, you must submit the peer-to-peer review request before a provider appeal has been submitted (exception: requests related to Medicare Plus Blue outpatient preservice non-behavioral health services and preservice elective inpatient surgical admissions requiring clinical review). If we denied a first-level provider appeal, you can request a second-level provider appeal. A decision on a second-level provider appeal is binding and final. For more information on appeals, refer to the appropriate provider manual.

Note: For Medicare Advantage authorizations denied during or after a service or admission is provided, you can either request a peer-to-peer review or submit an appeal. (Effective Jan. 4, 2021, no peer-to-peer review requests for hospital admissions of Medicare Plus Blue members will be accepted. Instead, providers should follow the two-level provider appeal process for Medicare Plus Blue.) For commercial authorizations denied before, during or after a service or admission is provided, you can either request a peer-to-peer review or submit an appeal.

What happens: New Directions utilization management staff notify the provider that the authorization request is placed in physician review status and identifies the date and time by which the review must be completed. New Directions tries to schedule a time for the review; if they are unable to, they make two attempts to reach the attending physician prior to the deadline. If New Directions can’t reach the attending physician, they make a determination on the authorization request based on the available information.
