AIM medical oncology prior authorization program opt-in list for Blue Cross commercial self-funded groups

December 2021

This document lists each Blue Cross Blue Shield of Michigan commercial self-funded group that has opted in to the AIM Specialty Health® medical oncology prior authorization program along with the date on which they opted in.

When a group opts in, providers must request prior authorization for medical oncology and supportive care drugs that are managed by AIM before administering the drugs.

Note: When prescribing these drugs **for non-oncology diagnoses**, don't submit the prior authorization request to AIM. Instead, fax all clinical documentation to the Pharmacy Clinical Help Desk at 1-866-915-9187.

Account / group name	Group number	Opt-in effective date
UAW Retiree Medical Benefits Trust members with non-Medicare plans except UAW Retiree Healthcare Trust (group 70605) and UAW International Union (group 71714)	71400, 71435, 71436	1/1/2019

To learn more about the AIM medical oncology program, including the dates on which the program went into effect for members with other types of plans, see the [Oncology management program: Frequently asked questions for providers](#) document.
