Specialty Pharmacy Prior Authorization Master Opt-in/out Group List

At the start of the Medical Drug Prior Authorization (PA) Process in 2013, all groups were included unless they opted out. Use the chart below and the attached list to determine if a group is opted in or opted out of the standard program.

IF:	THEN:
There is no opt-in date listed	The group is considered opted-out.
The group opted-out and then chose to opt back into the program	The group is listed with an "opt-in effective date."
The group is not displayed	The group has been opted-in for at least 2+ years (based on the claim filing limitation)

Notes:

- Groups that are opted-out of the medical drug prior authorization program are also opted-out of the site of care requirement for outpatient hospitals.
- The group names are listed in Alpha order.
- The group numbers, package codes/sections are displayed.
- Members who are part of a group that has *opted out* do not require preauthorization for administration of these medical drugs; however, are still required to have the necessary benefits to ensure coverage. Check patient's benefits through the normal process.
- Medicare primary is not subject to Prior Authorization (PA) process.
- URMBS and FEP are not part of the **standard program**. Please see the group specific drug list for more details.
- **Do not print this list;** as opt-in/out groups are subject to change at any time.
