# Oncology Value Management program prior authorization list for UAW Retiree Medical Benefits Trust PPO non-Medicare members

## Medications that require authorization by Carelon

Revised February 2025

Prior authorization for medical oncology and supportive care drugs is required through the Oncology Value Management program, which is administered by Carelon Medical Benefits Management for UAW Retiree Medical Benefits Trust members with Blue Cross non-Medicare plans.

### Notes:

- This requirement doesn't apply to the UAW Retiree Health Care Trust (group number 70605) or the UAW International Union (group number 71714).
- For information on medical oncology and supportive care drugs that require prior authorization for other Blue Cross and BCN commercial members, refer to the [Oncology Value Management program prior authorization list for Blue Cross and BCN commercial members](#).

To be eligible for payment, you must submit authorization requests to Carelon prior to administering any of the drugs on this list.

Note: When prescribing these drugs **for non-oncology diagnoses**, don't submit prior authorization requests to Carelon. Instead, fax all clinical documentation to the Pharmacy Clinical Help Desk at 1-877-325-5979.
