

Please join
Blue Cross Blue Shield of Michigan for an
AIM Specialty Health®
ProviderPortalSM Webinar

Beginning Jan. 1, 2019, Blue Cross will implement two new utilization management programs for oncology services for UAW Retiree Medical Benefits Trust (URMBT), non-Medicare members. With these programs, prior authorization must be obtained for some outpatient medical and radiation oncology treatments. The programs require prior authorization for radiation oncology and medical oncology services in outpatient settings.

Sign up for a webinar to hear an overview of the program and learn how to access the AIM system and how the submission process works. The webinars listed below are split between medical oncology and radiation oncology for clinical and non-clinical staff. Click the link below to add the webinar to your calendar:
