

CARE MANAGEMENT AND SUPPORT SERVICES

Blue Cross Blue Shield of Michigan and Blue Care Network offer care management programs and support services to members.

These programs vary based on member coverage and may be administered by Blue Cross or BCN staff or by contracted vendors.

Care management programs provide patient support by identifying patients with health risks and working with them to improve or maintain their health, and **support services** provide support to members through their health journeys.

In addition to the health assessments that are available from the vendor listed below, there's also a health assessment that's sent to Medicare Advantage members. The results of these assessments are shared with members when there are day-to-day health concerns that need to be addressed.

An additional health assessment program is provided by the vendor listed below.
