

### CARE MANAGEMENT AND UTILIZATION MANAGEMENT

Blue Cross Blue Shield of Michigan and Blue Care Network offer care management programs and support services to members. We also provide utilization management programs.

These programs vary based on member coverage and may be administered by Blue Cross or BCN staff or by independent companies.

- **Care management** programs provide patient support by identifying patients with health risks and working with them to improve or maintain their health, and **support services** provide support to members through their health journeys.
- **Utilization management** programs focus on ensuring that patients get the right care at the right time in the right location through the prior authorization process.

These programs are provided by the departments and independent companies listed below.

### CARE MANAGEMENT AND SUPPORT SERVICES

#### Home & Community Care (formerly known as naviHealth, Inc.)

Offers a nonclinical, transitional care program for Medicare Advantage members that aims to reduce avoidable inpatient readmissions. Home & Community Care does this by:

- Engaging members during their hospital stays and supporting them through phone calls for up to 30 days after discharge
- Identifying social barriers that may affect medical outcomes and connecting members with appropriate resources
- Helping to coordinate physician appointments
- Connecting members with appropriate Blue Cross and BCN clinical programs and resources
- Assisting members with medication adherence

The program is available to members who are discharged from inpatient facilities to certain post-acute care facilities in Michigan.

Home & Community Care provides this service to the following groups and individual members:

- Medicare Plus Blue<sup>SM</sup> — All groups and all members with individual coverage
- BCN Advantage<sup>SM</sup> — All groups and all members with individual coverage
